**The Institution has facilities for alternate sources of energy and energy conservation measures.**

Over the past few years the college Management has taken a conscious decision to replace existing lights and lighting equipments by LED sources. Dedicated efforts have been made every year with a sizeable amount being spent on buying and fitting LED lamps and tube lights across the college premises.

Old fans and other electrical equipment have been regularly repaired/or replaced with newer, energy efficient ones. Heavy equipment like water pumps are regularly serviced and maintained to keep them functioning optimally.
