

SOMA SUBHADRAMMA RAMANGOUD ARTS AND COMMERCE COLLEGE FOR WOMEN, RAICHUR

**7.2.1: Best practices-1 Environmental
Consciousness.**

Objectives of the Practice

- To acquire knowledge of pollution and environmental degradation.
- To create awareness about environmental protection
- To create a greener atmosphere within the camp.
- To create awareness in the neighborhood community and at adopted villages.
- To transform the campus into a pollution-free and environmentally friendly zone.

The Context

The climate of the district is with mild winters and hot summers. It is characterized by dryness, a major part of the year, and a very hot summer. The district is drought-prone due to low and variable rainfall. To create awareness on developing the greenery atmosphere in the surrounding of houses, college campus, neighborhood communities, villages, etc., the college has initiated a special drive to promote environmental consciousness among staff and students.

The following initiatives have been taken in campus to contribute the Environmental Consciousness and Sustainability:

Green Campus Campaign:

The college campaign to promote sustainability and eco-friendliness in campus. Regular garden maintenance is done by gardeners. Invited experts to deliver a special lecture on the importance of greenery for creating an eco-friendly environment.

This has motivated every birthday girl to donate a tree to the college for the beautification of the campus.

Plastic Free Campus:

The programme aims to reduce plastic pollution on the college campus with a special focus on the reduction and elimination of single-use plastic. Students are encouraged to use stainless steel bottles instead of plastic bottles.

Waste Diversion:

The college has executed composting and recycling programmes. Separate dust bins are provided to collect degradable and non-degradable wastes in solid and liquid form.

Water Usage:

The rainwater harvesting system was established in the campus for the effective management of water. This innovative measure has contributed tremendously towards the alleviation of water shortage.

Energy Management:

The college implemented various methods to save energy. The LED bulbs are used in the campus. The Solar Energy system is utilized and a number of CFL bulbs in the college

are powered by solar power. The solar panel is mounted at the girl's hostel for the purpose of use of a geyser.

Green Audit, Environment Audit and Energy Audit:

The college has conducted a Quality Audit comprising of Energy, Environment and Green. The overall observation of the report is implemented on a priority basis.

Tree Plantation:

The college regularly conducted tree plantation activities in the neighborhood community and in the campus.

Evidence of Success:

Following are some of the evidential reports of the practice –

- Every female student donated a tree on the occasion of their birthday celebration.
- Students are using reusable bags instead of plastic.
- Students are well informed about the conservation of energy and hence students switch off the lights and fans wherever classes are not engaged.
- In association with the Department of Forest, the college has sapling more than 200 trees in the neighborhood community.
- Replaced the bulbs and tubes with LED in all the classrooms and facilities rooms.
- For the effective implementation of Greenery Initiatives, the college is in receipt of an Appreciation Letter issued by the office of the Gram Panchayat, Govt. of Karnataka, Hosur and Udangal Khanapur respectively.

Problems

Some students hesitate and even some of the parents do not permit their children to come out of the college campus and visit public places to create awareness about environment consciousness.

SOMA SUBHADRAMMA RAMANGOUD ARTS AND COMMERCE COLLEGE FOR WOMEN, RAICHUR

7.2.1: Best practices-2 Earn While You Learn.

BEST PRACTICE-II EARN WHILE YOU LEARN

Being a women's college for the empowerment of women and upliftment of women, the Earn While You Learn programme gives opportunities to the students to earn while they are learning. Earning while learning is one of the most important pillar of future career development. Students of various streams not only support their studies, but also gain practical experience which would help them in their later careers. This helps to gain first-hand experience in the corporate world and it develops their self-confidence and personality. In the best practice scheme, students is encouraged to earn while attending their regular classes. This provides an opportunity for students to explore their hidden talents and confidence to prepare better for becoming a good entrepreneur. Earning while learning is more necessity for students coming from poor financial conditions. Hence, they will be prepared, emotionally and mentally for the changes of their graduation.

Apart from teaching and learning, colleges encourage, educates and mould the students so as to bring out their hidden talents and skills and empower them to face society and lead a respectful life.

Objective:

- To inculcate in them the values of work and a sense of responsibility.
- To tap the innate qualities of the students
- To explore the creative skills
- To learn effective communication skills
- Managing finance and learning the value of money
- Developing confidence and building of self-esteem, self-employment and self-reliance.
- To prepare the students for job in the future.

Context:

The Hyderabad Karnataka region is known as the Kalyana Karnataka, of which our city is a part. It is considered to be a backward region. Many students of this region are economically and socially weaker section.

In the present scenario, there is no field untouched by women, but still empowerment of women is far away from reality. Since from 5 decades, the college is fulfilling the dreams and vision of our institution. In view of these facts the college has designed and implemented the Best Practice i.e., **“EARN WHILE YOU LEARN “**.

Practice:

A committee of faculty members is formed to motivate, guide and monitor the students. Students are free to approach the committee to register their names beforehand. The names of the students who are going to keep the stalls should enter their details along with the menu and price in the register. Interested students are allowed to display their products for sale like eatables, embroidery work, decorative articles, craft items, articles prepared from waste materials, mehendi applications, handmade fancy bangles, earrings, etc.

Evidence of Success:

Students gained knowledge of communication skills, time management, self-earning, and finance management. They experienced joy and at the same time they learn to face the difficulties in livelihood.

Problems:

Students found little difficulty in utilizing their leisure time to manage the stalls along with the classes.
