ABSTRACT:

COVID-19 Pandemic crash the complete economic status of the world. Perhaps the most tragic period of history human has ever seen in the world. No country escaped safe from its brunt even developing country or under developed country. The Indian economy has been most affected due to COVID-19 Pandemic. Indian Banking sector faced and continuously facing many challenges. Government and RBI made necessary changes in their policy with the help of reforms for facing COVID-19 pandemic. The objective of the research paper is to study the situation of Indian banking sector during covid-19 pandemic and the reforms RBI brought in its policy due to COVID-19 pandemic and also in general how the Indian Banking Sector is affected from COVID-19 pandemic. It's true that banks are established in India with a primary objective to make profit by providing services to customers. But Covid-19 pandemic has changed the scenario of Indian customers. Due to lockdown and shut down of businesses income source of the people came to close down. These challenges our Indian banks are facing in current pandemic situation.
